

FOR IMMEDIATE RELEASE

**JESSICA STOCKHOLDER**  
**“Table Top Sculpture”**  
**10 October – 15 November 2003**  
**Opening Reception: Friday, 10 October, 2003**

Internationally known artist Jessica Stockholder’s upcoming exhibition titled **Table Top Sculpture** will present a collection of her studio works in a “situation” that incorporates the work of about thirty other artists.

Stockholder has become well known for her mixed media assemblages that utilize diverse, commonplace materials in a dialogue with particularities of place and picture making. Although her autonomous sculptures and site-specific installations exist in three dimensions, the artist’s work has become crucial in the ongoing dialogue about the increased possibilities of painting. Stockholder explores formal and painterly issues in volumetric and architectural space.

**Table Top Sculpture** consists of a group of sculptures the artist has created in her studio, shown together with the work of about thirty other artists she has invited to exhibit with her. These artists will be represented by small wall works hung salon style, which become part of the installation along with Stockholder’s own work and a set of living room furniture.

In this exhibition, Stockholder raises questions about the nature of authorship and the expression of the individual voice. She hopes to evoke simultaneously two different experiences of valuing and understanding art—the grand, spectacular public display of art in the white cube of the gallery, and the quiet reverie associated with a solitary experience and perhaps private ownership. Below is the list of artists who have contributed work to this exhibition:
